 Adjustable Crank Height: diagonal and vertical**Standard**
 Length (mm): x width: (V cranks) 180mm x 20" 190mm x 20"
 (S cranks) 200mm x 22" 210 mm x 22"
 200mm x 24" 210 mm x 24"
 XLT46 Extra crank arms: Length _____ Width _____ 200.00
 V _____ or S _____

FOOTNOTES

- ¹ Grip shift is operated by rotating the grip mounted on either the right or left handle. Super light. Shifts quickly and accurately, Preferred by most Team Invacare/Top End members.
- ² Thumb and forefinger operated. Super light weight, high quality components. A great choice for those who want low weight and do not like the grip shift.
- ³ Ultra light weight brake calipers with titanium nuts and bolts.
- ⁴ Available with standard or Corima Carbon wheel only.
- ⁵ XLT 58 and 59 are cassettes with closer gear ratios. Not best for hilly terrain.

10. Performance Upgrades:

- XLT60** SRM® Training System – Professional Road ..3,500.00⁶

11. Camber 9 degrees..... **Standard**

- XLT142** Camber 3 degrees 100.00

WHEELS (Threaded Axle Only)

26" High performance wheels with high pressure clincher tires:.. **Standard**

Performance Wheel Upgrade (does not include standard wheels):

- XLT75** Top End Carbon rim upgrade 2350.00
 (26" Tubular only)
- XLT 78** Top End/Spinergy® Carbon rim upgrade..... \$1800
 (26" clincher only)
- XLT77** Time Trial Package: Front Wheel: 26" Top End Carbon
 Rear Wheels: Zipp® Disc (tubular only) upgrade..... 3,250.00

FOOTNOTES

- ⁶ SRM® Power Meter is a state of the art measuring tool. It is like connecting a computer to your handcycle. Not available with a chainring less than 39. Visit SRM.de for more details. The Power Meter is integrated directly into the Top End cranks. This is used worldwide by many top professional cyclists and handcyclists. Std. discount does not apply to XLT 60,86,87 or to RACE options.

- Tangerine Red Raspberry Red Grape Madness
 Safety Yellow Sunkissed Orange Bubblegum Pink
 P1 Two color option\$100
 Fork color _____ Frame color _____

Frame – Ovalized 6061-T6 aluminum aircraft tubing with internal skeletal structure for increased stiffness.

Removable Fork – 6061-T6 aluminum, super stiff with adjustable crank housing.

Frame Design – Recumbent 3 piece centerline frame construction with welded seat and adjustable back angle.

Wheelbase – 60" Standard, 57" available (not recommended for users taller than 5'8"). Overall Length 86"

Turning Radius – 18 feet for 360° circle, 12 feet w/one backing maneuver.

Static Tip Angle - 39° for 250 lb subject.

Transfer Seat Height – 8" with 2" cushion.

Backrest – Adjustable fore and aft.

Back Angle – Adjustable angle back of 55° - 90°.

Propulsion System – Features a combination of Shimano and Top End components, 27 speeds, 48-39-24 chain rings and 11/34 cassette as standard. The 11/34 cassette is operated by the Hands-On Rapid Fire unit which is mounted on the right (standard) hand pedal. It operates both the 11/34 cassette and the hands-on brake. A shifter/derailleur mounted on upper crank operates the top chain rings utilizing a system which minimizes cables and their maintenance. A parking brake/second brake is mounted on the fork.

Crank set – Crank is adjustable in both diagonal and vertical planes. Top End S or V crank set with integral pedal bearings are standard. To choose the width for the crank, consider the end user's shoulder width. The width is measured horizontally center to center to the point at the middle of the hand pedal. Length of crank set depends on the length of the arms. The length is measured perpendicular from the center of the crank to the center of the hand pedal spindle. See diagram below for how to measure S crank set.

Steering – Pivot steering and raked fork for controlled turning and stability.

Hand pedals – Hand pedals are made of lightweight aluminum and are ovalized to precisely fit the hand. The bearings which allow the pedal to rotate while pedaling are located in the crank set and not in the pedal, which makes this pedal very comfortable. Power Plates consist of flat aluminum plates welded the lower end of the pedal.

Footrest – Multi-adjustable fore and aft w/straps to securely cradle calves and feet. Straps are 4" wide and feature safety straps for ankles.

Performance wheels – Spoked wheels with threaded axles and alloy rims. 14 gauge stainless steel spokes. 26" x 1" High Performance Clincher Tire/Tube 100psi

Carbon Wheel Upgrades – Threaded axle only

1. 26" Top End Wheels w/Carbon composite rim and stainless spokes. 24 spokes front, 20 spokes rear. Tubular only.
2. 26" Spinery Wheels w/Carbon rim. Clincher only
3. 26" Time Trial Package: Top End Front Wheel, w/carbon rim Zipp® Disc Rear Wheels. Tubular only.
4. 26" Corima AERO Wheels w/ Carbon/Graphite composite rim and stainless ovalized spokes. Tubular only.

Upholstery – Black nylon upholstery and foam standard.

Warranty – 3 year on frame and fork to original owner/limited parts warranty.

Assembly – Shipped completely assembled except for rear wheels. Shipping weight is 65 – 70 lbs.

Options – See front of form and go to www.topendwheelchair.com for detailed photos. Tool bag includes 22 tools in 1, a unique 3 piece design plus tire patch kit, CO2 tire inflators; tire changing tools and zippered tool bag. Everything you need all in one handy pouch.
