Adjustable back angle allows you to recline the back from 35-55 degrees.

Easy to use Shimano® Deore Rapidfire Shifter delivers hands-on shifting and braking.

FAQs

Why do I want this?

It is a great way to try or upgrade to a high performance handcycle at a GREAT price! Plus it is a super cardio workout, strengthens your core and you end up with arms of steel. Who doesn't want that?

If I want a different color or size can I still get the Top End Force Handcycle and have it made just for me?

Yes, you can. (Retail is \$4295 though)

Can you define minor assembly required and how hard is it?

There are only a few parts to assemble and they are easy for most people but we will include simple assembly instructions and very clear diagrams to help you. The time to assemble the Force-2 handcycle should take no longer than 30 minutes tops.....just attach the front fork to the frame, secure the drafting bumper, then the front and rear wheels. (The front wheel can be a little tricky but anyone who has had a bicycle will know how to thread the chain). For a small fee, we can assemble it for you but it will also cost a bit more to ship due to the bigger box size.
