**Top End® Excelerator XLT™
Handcycle Specifications**

Frame - 2.5" x .065 ovalized 6061 aluminum aircraft tubing.

Frame Design - Single main tube, recumbent position.

Fork Assembly - 4130 Chrome-moly for strength/stiffness. Raked angle for cornering stability.

Wheelbase - Overall length 72".

Weight - Overall weight 30 - 35 lbs.

Turning Radius - 18 feet for 360° circle, 12 feet w/one backing maneuver.

Static Tip Angle - 39° for 250 lbs. subject.

Transfer Seat Height - (w/2" Cushion) 13". Seat height Front (w/o cushion) 13", Seat Height Rear 9".

Back Angle - Adjustable angle back.

Back Style/Height - Optional back is the same width as seat/back height 11" - 14" adjustable. Standard narrow back is ideal for competitive cyclists. Seat width minus 7". Back Height is fixed at 20".

Upholstery - Nylon w/hook and loop adjustable tension seat sling. Seat restraint included.

Crank - Adjustable height.

Chainguard- Black plastic.

Steering - Pivot steering w/raked fork for controlled turning and stability. Road crown compensator is standard.

Standard Propulsion System - - 175mm Crankset w/one chainring, adjustable height crank, Shimano 7 speed front hub w/internal hub brake and 7 speed twist shifter.

Braking System – Shimano internal drum brake (coaster brake) and Shimano CN-HG50 Chain, activated by pedaling backwards.

Gear Shifter- Shimano Tourney revoshifter indexed twist grip with gear display, 7 speeds. For customers with limited hand function the Quad twist shifter option, a 3 pronged adaptation that is secured around the twist shifter is recommended.

Optional Mountain Drive - Available only w/standard propulsion system (7 speed internal hub). Works like a transmission to gear "down" for climbing hills if you need it. Gives you a true doubling of the number of gears. No warranty on this option. Cannot change gears under load.

Handles - Shape and angle is ergonomically designed for maximum power. Foam covered or Delrin grips.

Optional Handles - Horizontal handles and quad gloves include foam covered handles. Gloves secure quadriplegic's hand. Tri-pin quad handles offer a 3 point contact (the same are used in driving a car) and also allow customer to get on/off of handles independently, as to change gears, etc. The Quad cuff is a U shape plastic that fits the Delrin handles and offers minimal support.

Footrest - Multi-adjustable fore and aft w/straps to securely cradle calves and feet. Leg guard attachments are recommended for persons who have no leg movement. The leg guard will protect the legs from getting into the chain.

Performance Wheels - Rear hubs are precision heat treated, silver anodized w/quick release stainless axles or optional 1/2" threaded axles. Quick release axles are easiest for transporting the handcycle, but the threaded axles will offer more performance. Threaded axles screw into the receiver w/allen wrench. 14 gauge stainless steel spokes. There are 3 standard wheel options:

26" High Performance Wheels

26" x 1" High Performance Clincher Tire/Tube 100 psi

24" Off Road wheels Alloy 24 x 1.5 Rims

24" x 1.75" Heavy Treaded Tire, 24 x 1.5 Tube 40 - 65 psi

24" Cruiser wheels Alloy 24 x 1.5 Rims

24" x 1.75" Treaded Tire, 24 x 1.5 Tube 40 - 65 psi

Camber – 15° for stability.

Recommended Options - Helmet, Cushion, and Water Bottle and Cage (as this is custom to fit on this bike).

Warranty - 3 year on frame to original owner / limited parts warranty.

Assembly - Shipped completely assembled except for rear wheels. Shipping weight is 50 lbs.

Options:

Cordless Computer/Speedometer
